

**driven ratio far out-ways any loss of energy due to friction or heat. Therefore this process allows the fan to operate for an indefinite period without interruption.**

#### **REMARKS-General**

**The applicant submits that the above explanation and amendments (A) and (B) sufficiently answers all of the objections of the present office action, and respectfully request that the honorable examiner reconsider his ruling. The prose applicant also request that this explanation be added as an addendum amendment substitute specification.**

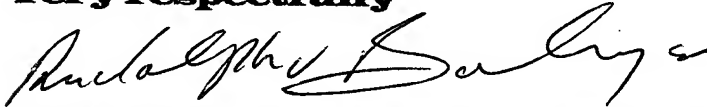

#### **CONCLUSION**

**For all of the reasons given above, applicant respectfully submits that all deficiencies in the specifications or claims, now complies with sections 112 and 101 respectively, and the claimed distinctions are of patentable merits under section 103 because of the new results provided, namely a new useful continuous motion cordless fan has been provided. Accordingly, applicant submits that this application is now in full condition for allowance, which action applicant respectfully solicits.**

**Conditional Request For Constructive Assistance**

Applicants have amended the specifications and claims of the application so that they are proper, definite, and define novel structure which is also unobvious. If for any reason this application is not believed to be in full condition for allowance, applicants respectfully request the constructive assistance and suggestions of the examiner pursuant to M.P.E.P. Sect. 2173.02 and Sect. 707.07(J) in order that the undersigned can place this application in allowable condition as soon as possible and without need for further proceedings.

**Very respectfully**
